Amarillo SPCA cannot guarantee the health or disposition of any foster animal. We do not have past records for most of the animals and there may be some risk associated with taking in foster animals. Family pets must be current on all vaccinations and foster pets must be kept isolated from your family pets if you suspect they may have an illness. Amarillo SPCA is not liable for any illness or expenses you may incur from your own pet contracting an illness from a foster animal.

Amarillo SPCA requires **ALL** animals be current on vaccinations, be spayed or neutered and microchipped prior to adoption. All puppies must be at least 3 months of age before they can be spayed or neutered. Female puppies must weigh 6 pounds and male puppies must weigh 4

pounds before they can be spayed or neutered. This means most foster commitments are for a minimum of 6 weeks. Some may be longer depending on weight of the foster.

Foster animals **CANNOT** be transferred to the custody of any other person without prior consent and permission from Amarillo SPCA.

All pets in the Amarillo SPCA foster program are the property of Amarillo SPCA and must be returned within 24 hours of request.

If fostering **ADULT** dogs, the City of Amarillo recognizes the foster as being responsible for the animal. City ordinance requires the animals must be properly restrained and confined. In order to comply with local laws and ensure the safety of the animal, it is crucial for animals to be in a home or fenced yard, and on a leash when outside the foster's premises. Failure by a foster to properly restrain or confine an animal could result in the City issuing a citation to the foster. Amarillo SPCA is **NOT** responsible for any citation issued due to the foster's failure to comply with the law. A foster's failure to comply with the law or receipt of a citation **WILL** result in Amarillo SPCA requesting the return of the animal.

If fostering animals under 1 year of age, Amarillo SPCA requires that animal does **NOT** leave the foster's premises other than being taken to Amarillo SPCA to receive vaccinations, to the veterinarian if sick, to the veterinarian on day of spay/neuter surgery, and to PetSmart when available for adoption. Even in these circumstances, the foster animals under 1 year of age **MUST** be carried or taken in crates and not allowed on the ground.
